Project Name Discover the unknown

Categories

Description

Description of the project: Idea of this project appeared during the 100 years of scouting National camp, where we met scout in wheel chair. We discover that there are lot of different people around us which we don't meet every day. As it was new experience for us, we decide find out something more about youth with special needs in Latvia. 6 rovers and rangers from LSGCO will collaborate with LNS (Latvian Association of Deaf) members in order to bring together and educate members of these organisations. Scouts and Guides will learn to understand and communicate with deaf people, but LNS members will learn some scouting/guiding skills and about scouting/guiding in general as international youth movement. In March, contact with the LNS will be established. Meanwhile some members of LSGCO will begin learning how it is - to be deaf - with help of several educational activities, 3 of them will take the sign language course. In May, we will begin to prepare the summer camp In June, the members of LSGCO and about 20-30 deaf people (aged between 12 and 20) will go for a hike together (about 15km). In July, there will be a three day camp for deaf Latvian people (about 20 from LNS + 20 scouts/guides+ 10 staff).

Objectives of the project: 1) to introduce young, deaf people with LSGCO, their activities, objectives and principles, by organizing a hike and summer camp; 2) the members of LSGCO can learn how to communicate with deaf people; 3) 3 of the members of LSGCO will learn the sign language, so they can develop a long-term cooperation and give the possibility to deaf people to join LSGCO;

Finance / Budget: 1000€ equipment (sleeping bags, tents, different camping equipment) 1000 € food for 3 days camp and 1 day hike (50pers x 4 days x 5euro) 100 € mobile phone bills for 4 months; 450 € T-shirts or other souvenir from the project 600 € sign language course 500 € translator for beginning of project and helpers in project activities 1000 € transport expenses 4650 € total /**3000€ ESF** + 1650 € city council of Riga

Project Name National Cub Scout Camp

Categories

Description

The National Cub Scout Camp is aimed to promote the new progressive scheme of this age section as part of the Scout method. The quality of the Programme will raise by offering examples of best practice activities and by encouraging the young leaders to implement it at local level. The concept of "Learning by doing" offers a great framework for leaders and their Cubs to develop and participate to specific activities such as hiking, creativity workshops, roleplay games, races, olympic games, wide games.

Objectives of the Project

By the end of the camp, the Cubs will have:

- Lived in the nature for one week in a different environment then home - by the Scout Law
- Succeeded to face new situations, to experience adventure in order to discover new horizons
- Experienced the "Life of the Patrol" and made new friends

By the end of the camp, the Cubs Leaders will have:

- Been encouraged to test and further adopt the progressive scheme in their local centres
- received examples of best practices and hand-out activities that can be further used in their regular meetings in order to increase the quality of the Programme at local level

Finance / budget

Meals: 130 pax x6 days x3€ per day =	2340€
Medical assistance:	140€
Office supplies (paper, markers, paint brushes, paint, clothes, etc) =	230€
Badge of the camp 140x 4 RON =	182€
Participation fee: 140x 40 RON =	1555€
Total amount =	<u>4447€</u>
Total requested =	2892€

Amount requested 2,892

Project Name 20 000 sekunda u moru (20 000 seconds in the sea)

Categories

Description

Description of the project: After a successful first year of project Sea Scout Patrol "Morske Vile" . where the results were beneficial for both Club members and children from the Centre, Sea Scout Club "Jadran" decided to continue the work. In cooperation with parents and the Centre management and teachers, with support of the City of Split and the Ministry of the Family, Veterans' Affairs and intergenerational Solidarity we are continuing the work in the Centre offering different Scout activities for children with special needs.

Objectives of the project: (1)To offer free time activities to children with mental disabilities. (2)To integrate them in society and give them opportunity to learn and develop skills in nature. (3) To overcome mind barriers in working/playing with children with mental disabilities (4) To give patrol members equal opportunities to other members of the group and develop the sense of belonging. (5) To offer Scout activities on sea

Finance / Budget: Membership fee 10membersx35€=350€ - Group "Jadran"; rent for the meeting room 300€ - psychologist assistance 500€ - Professional supervisors/advisors and teaches assistance 500€ - material used for the meetings 623€ (stationary 50€, games material 38€, flags 23€, projector 512€) - 3x10membersx30€=900€ (travel, accommodation and food expense, material for the activities); sailing and rowing professional supervisor 150€; boats and sailing equipment rent for 2 patrols 400€; scout uniforms 390€ (scarf 10membersx3.5€=35€, shirt 10x17€=170€, hat 10x3.5€=35€, pants/skirts 10x15€=150€) ; summer camp fee 10x150€=1500€; summer camp equipment 1000€ (tents 5x100€=500€, sleeping bags 10x50€=500€) - TOTAL 6613€ / Income: 500€ - The Ministry of the Family, Veterans' Affairs and intergenerational Solidarity; 300€ - The City of Split; 500€ - The Centre for children with mental disabilities; 2363€ - the Sea Scout Group "Jadran" and it's members REQUESTED 2950€

Project Name Outdoor scouting all year long

Categories

Description

Description of the project: In recent years Latvian Scout and Guide Central organization has been encountering a rather rapid decrease in the number of members. In contrast, this year our Riga 155th Scout Unit has had the greatest membership. We have started working not only with boys, but also with girls and now the troop ensures effective functioning in all age groups. We find the possibility to do activities and camp together with troop members of different age groups to be of great value. The kids enjoy and feel interest in working together with older troop members, but the older ones themselves learn to be responsible and take care of others. We have also raised a new generation of leaders, that have been scouting since they were cub scouts - 9 years already. Now they have taken the posts of leader assistants. With increasing number of leaders, the opportunity to admit new members to our unit [troop] also increases. From our experience we've concluded that the main aspect that attracts the youth to scouting is the possibility to camp out, outside the city. For whole troop to be able to camp together we have a great need for several big tents (for 20 persons each), that would ensure the possibility to organise activities in rainy weather or in cold winter periods, and also provide sleeping place for a great number of people.

Objectives of the project: 1.To strengthen the cooperation of different age groups in the unit, giving them opportunity to camp together. 2.To provide possibility to get better camping experience in different weather and different seasons for a comparatively large group of participants. 3.To ensure with necessary equipment the organization's new member recruitment camps and training courses of new scout leaders.

Finance / Budget: 2 army type, heatable, multifunctional tents for 40-50 people, suitable for camping throughout the year in Latvia's climate: 2 tents x 1500 EUR = **3000 EUR**

Amount requested 3,000 EUR

Description **Description of the project:**

Every season in Latvia is special with its weather and nature. Learning different outdoor skills, such as cooking, sleeping and doing activities outdoors securely in every season of the year is an essential part in the development of personal outdoor skills. In Latvia the forests occupy 45 % of the territory and that is the reason scouts and guides of Latvia use them for many outdoor activities, especially in the summer time. We would like to improve our skills and be more competent in every season outdoors, because experience helps to do camping in complicated circumstances enjoyable. The *Outdoor skills session* will provide the basics such as the selection of the camping equipment, staying warm during cold conditions, making survival kit, making fire in wet conditions and hiking by using the nature as the main compass, learning to identify animal tracks. *Outdoor skills sessions* will take place 4 times a year - in every season (spring, summer, autumn, winter) and each of sessions will be for 4 days. The participants will be 20 scouts and guides from different units of Latvia and potential members of our organization.

Objectives of the project:

- to promote outdoor as a way of personal development in every season of the year;
- to give knowledge, theoretical and practical skills and experience in camping and survival in all kinds of weather and all seasons for scouts and guides of Latvia;
- to recruit new scouts/guides volunteers (preferably leaders).

Finance / Budget:

Food costs - 20 participants + 4 leaders x 4 days x 5€ per person = 480€ x 2 sessions = 960€
Equipment - outdoor army tent - 850€, other outdoor equipment - 500€ = 1350€
Planning costs - 100€ Transport costs - 200€ Total - 2610€

Project Name Show what scouting is

Categories

Description

Description of the project: Most of the associations in Europe are facing problems with decreasing membership, so do we. We have decided to make a movie about scouts and scouting in Latvia to attract new young people to our troop/association. We are planning to film all activities - hikes, camps, celebrations, etc. in which scouts are participating and to add interviews with scouts and those who were scouts. So the viewer of the movie would have a possibility to see what scouts are, what they are doing and what scouting is all about. And if they find it fun they might be willing to join scouts.

After finishing this project camera and all equipment will be used for educational purposes in local scout unit. Young scouts will be able to fulfil their ideas to make their own short films and to participate in youth amateur film contests in Latvia or other countries. And this equipment will be used to create other film projects in our association.

Objectives of the project:

1) Create a 30min movie about scouts and scouting and to demonstrate it in schools, universities, regional cultural centres, etc. and 5-7 min movie to demonstrate in the different events; 2) to achieve increasing membership in local scout units; 3) to educate scouts and rovers in filmmaking and to motivate them to create their own short films; 4) to improve scout and rover skills in editing video files.

Finance / Budget:

1) Camcorder: Sony HDR-HC7E = 1140EUR; 2) microphone: Sony ECM - MSD1 = 106EUR; 3) tripod: Sony VCT-R640 = 55EUR; 4)lights: Sony HVL-10NH = 136EUR; 5) MiniDV tapes: 10pcs = 72EUR; 6) Battery: Sony NP-FH70 = 72EUR; 7) case: Sony LCS-VA30 = 33EUR

Project Name Living Library and prejudices workshops

Categories

Description

Description of the project (with the help of the future leaflet):

Have you ever thought about your own prejudices and stereotypes about other people? Or the impression that other people might have about you? Do you have a lot of stereotypes for example about Roma people or refugees, Muslims or Jews, priests or psychologists, ex-criminals or ex-homelesses, wheel-chaired or blind people or about blond women? But you have never had the chance to speak to one of them to find out what his or her life is like? If you are ready to face your own prejudices and stereotypical judgements and meet "your stereotype" personally, you should become a reader of the Living Library where books can speak (because they are living people themselves: Romas, disabled people, ex-homelesses, rabbis...)! How does the Living Library work? The Living Library can be placed in several (almost any larger-scale) Scout programmes. (pe. Hungarian Rover MOOT - Ferry Festival August 21-25, 2008)

Objectives of the project:

The Living Library is a means of promoting respect for human rights and human dignity, and aims to raise awareness of, and enable constructive dialogue about prejudices that frequently lead to discrimination against individuals or groups of people.

Finance / Budget:

Expenses - 2800 EUR Incomes - 2800 EUR Leaflets, passes, catalogues, molinos (400 EUR) Own contribution (1100 EUR) Travelling costs of the books (500 EUR) Application for ESF (1700 EUR) Awards for regular readers (200 EUR) T-shirts for the books (200 EUR) Organizing expenses (400 EUR) Graphic design (100 EUR) Photo, film, drama workshops after LL (1000 EUR)

Project Name Scouting for everyone

Categories

Description **Description of the project:**

Scouting for everyone, is our motto for this project. We want to bring scouting to every child in our local community, more particular to the children that are not privileged like every other child. Our idea is to organize one scout patrol in orphanage close to our scout unit. We want to give more happiness to these children that unfortunately are not as happy as every other child. We hope that this small step will show big message to the local community and it will be followed by many other people which will help these children became healthy, strong and responsible young men.

In the beginning we plan to organize activities for these children with many games and interesting friendship activities to be able to attract them and make them interested about scouting. Following this we plan to form one scout patrol which we will equip with scout uniform, scarves and other scout presents to make them feel part of the scout movement.

Objectives of the project:

- Form one scout patrol with 10 children from orphanage
- Provide chance for these 10 children to be part of our scout family
- Raise awareness about less privileged young people in our local community

Finance / Budget:

- Activities and equipment for the new scouts (10 scout uniforms, scarves and presents) = **500 EUR**

- Scout camp for 50 young people for 5 days (Transportation, food, activities) = **1500 EUR**
Our scout unit will contribute with equipment for the scout camp (i.e. tents, sleeping bags) and organization of the camp.

Total amount requested from ESF: 2000 EUR

Amount requested 2,000 EUR

Project Name Training for Scout Patrol Leaders

Categories

Description Description Of the project:
For Five days 50 young scouts will be educated to become patrol leaders in their groups at the scout center "Golozinci". The Scouts will work in small groups with a trainer per group who will be their mentor during the training period. These Small groups will train through workshops and practical work. They will be educated in how to plan patrol meetings, monthly and yearly working sessions, history of the scouts in the world at large and in Macedonia, the making of a patrol, providing information though public relations, about scout uniforms, badges, laws, scout promise and method, project work, patrol spirit, surviving in nature, setting-up camps and understanding psychological and sociological characteristics of the members.
After This training the participants will be promoted to the position of patrol leaders and they will get certificates for the successful completion of this seminar.

Objectives Of the project:
Development Of leadership attributes to work with young people age 17 - - 20
-Provide Role models to help guide the young people by using progressive-stimulating programs
Training of 50 Scouts for work with young people in their spare time-
Promotion of positive characteristics in young people through the use of the Scout methods
- Promotion of none-formal education for the young people of Macedonia.

Finance / Budget:
Transport of the equipment by truck = €32
Transport of 50 participants by bus = €65
Supplies, 5 days, per person 3€ equal 15€ for meals 50 x 15 = €750
Administrative Costs = €45
Communication Costs = €40

Description

Description of the project:
 A group of ten Scouts from our group will form the redaction of the magazine. They will work on collecting information from other scout groups from our country and the region from the internet and from other sources and they will be published in the magazine and send to all scout groups in Macedonia or individual scouts who would like to receive Scout reporter on home address. Published materials will be activities from the scout group from Macedonia and the European Region, news from WOSM and other National Scout Organisations. This will also include orientation in nature, topography, ecology, first aid and a fun page. Also, this magazine will be published twice a month during a period of six months and will be sent by post to all the Scout groups and individual Scouts. Also a lot of our older and ex-members have successful businesses, we will provide commercial space for advertising. Money from Advertising will be a way of sustainability of the magazine 'Scout Reporter', which will also be published in electronic version on our website.

Objectives of the project:

- Providing quality and fresh information to the Scout in Macedonia
- Improving collaboration and communication between Scout groups by sharing information and knowledge
- Putting together a group of ten Scouts to work as a team on a serious project directly will improve their team work and will improve them as individuals

Finance / Budget:

Buying one computer	605€
Buying one scanner	50€
Internet for six months (10€ per month)	60€
Printing (12 editions x 37.5€)	450€
Telephone bills for six months (20€ per month)	120€

Project Name Leadership Symposium 2008

Categories

Description **Description of the project:** Until 2007 there was no tradition of national leaders meetings in Scouting Slovakia. We have identified that Scouting Slovakia strongly lacks regular events, where leaders from different scout groups and regions, from different age groups and with different levels of knowledge can meet, pass on their experience with leadership, educate themselves, get new information, discuss different topics, play and relax together, have fun and get new inspiration and motivation for their work with children. Leadership Symposium 200 will last 4 days, over an extended weekend in May 2008 and the programme will provide tens of activities for around 100 leaders from three main areas: education, motivation and mutual exchange
Objectives of the project: The main objective of the second Leadership Symposium 2008 is to create a tradition of national meetings of leaders that answer their needs – meetings where they can exchange ideas and experiences, where they will get quality education and where they can meet and discuss new trends and issues that matter to them and also where they can network and start cooperation on further scout projects. The Symposium follows the first pilot project, therefore the objective is to continue with this very successful event and attract even more scout leaders.
Expenses: Transport (100 participants – different fares, est. 40 000 SKK) 1.184 EUR Food (100 participants * 750 SKK = 75 000 SKK) 2.220 EUR Facilities and Accommodation (100 participants * 750 SKK = 75 000 SKK) ... 2.220 EUR Material (activities, games, workshops, handouts = 13 000 SKK) 385 EUR TOTAL AMOUNT 6.009 EUR
Incomes: Participation fees (100 participations * 300 SKK = 30 000 SKK) 888 EUR Ministry of Education (60 000 SKK) 2.421 EUR Needed support . 2.700 EUR TOTAL AMOUNT 6.009 EUR

Project Name NEW LEADERS FOR ROMA SCOUTING

Categories

Description

Description of the project:

The Roma Scouting functions from the year 2001. Everything we have achieved is based on Roma leaders in local communities. During the initial phase we have dedicated a great deal of attention to their training and motivation. Unfortunately the autumn of 2007 has been marked with the departure of many leaders from active Scouting because of work. Many leaders who were trained and well established have left for Britain and other European countries for seasonal work in order to provide for their families.

Objectives of the project:

The purpose of the project is to run 2 basic leader trainings for adult leaders where the basic principles of Scouting and Scout method will be explained. We also want to organize a one day training for 50 peer leaders (in the Rover age group) who should be the cornerstone for patrol work and patrol system in the existing and newly established Scout groups.

Finance / Budget:

Expenditures

Basic Leader Training (food, accommodation) 20 leaders x 50 EUR = 1000/training, 2 trainings = 2000 EUR Peer Training and event for 50 young leaders (food, accommodation) 50 leaders x 25 EUR = 1250 EUR Transport and travel of trainers 3 trainings x 250 EUR = 750 EUR Field work (transport, travel costs) 10 months x 100 EUR = 1000 EUR Administrative expenditures (phone, postage, other) 10 months x 50 EUR = 500 EUR Total 5500 EUR

Income

European Scout Foundation 3500 EUR Own sources 2000 EUR Total 5500 EUR

Project Name Basic equipments for cave-scouts

Categories

Description **Description of the project:**

Hungary has a lot of caves in the mountains. Budapest, the capital of Hungary has lot of thermal springs and caves, so we have very friendly contact with the cave-explorer and potholer societies. A few Hungarian scouts interested in caving. We need basic equipments for the outsider scouts, who want to see around in a cave, and want to know about caves. The professional Hungarian cave-scouts (they are regular scouts and leaders, and they have contact with cave-explorer societies, so they live like scouts with potholers. They can be cave-guides for the boys and girls to visit lot of non-public caves, and give a big experience for them.

Objectives of the project:

Create a basic equipment set for ten scouts to visit caves. The cave-scouts guide the boys and girls in patrol format. into the cave, if they want to know something about the caves. The cave-scouts became the owner of this equipment, so they maintain the equioment.

Finance / Budget:

Hats (15 €/hat, 10 hats = 150 €) Overalls (60 €/overall, 10 overalls = 600 €)
Lights with special batteries (75 €/light, 10 lights = 750 €) Subtotal is 1,500 €.

Project Name Professional equipments for cave-scouts

Categories

Description

Description of the project:

Hungary has a lot of caves in the mountains. Budapest, the capital of Hungary has lot of thermal springs and caves, so we have very friendly contact with the cave-explorer and potholer societies. A few Hungarian scouts interested in caving. They are the cave-scouts. They are training themselves to become professional potholers, and working as potholer and scout. This work is a special path of the scout education. This work needs self-control, work exactly in team, and work in a special environment. This way is very good for the HSA to have a professional team to serve the scout movement as cave-guides.

Objectives of the project:

Create a professional equipment set for cave-scouts to work as professional potholers. It is a very important to create a profile team. We need special ropes and special climbing sets. The cave-scouts became the owner of this equipment, so they maintain the equipment.

Finance / Budget:

Ropes (1 €/m, 400 m = 400 €) Climbing sets (180 €/set, 10 overalls = 1,800 €)
Security sets (400 €) Subtotal is 2,600 €.

Description

Description of the project:

All Hungarian scouts are interested in the national folk heritage. We think this is a special scout-method for Hungarian scouts. We have a lot of folk-songs, folk-dances and we use them in scouting (e.g. we sing folk-songs in the circle around the campfire). We have a special team, the Folk-dance Group named Rege. They learn dances, they make special camps, where they try to leave with authentic commons in the village, to learn about the traditional lifestyle. They make courses to the scouts to make the folk-dance profile exam, and make dance-houses (the traditional folk-dance hall) for the older scouts. They have some money from performances, and they need traditional dresses for this performances, and they want to use this dresses in special traditional heritage camps.

Objectives of the project:

They can make traditional dresses for 10 persons and boots. They will have dresses for the performances and the scouts education.

Finance / Budget:

Dress (240 €/person, 10 persons = 2.400 €)

Boots (60 €/pair, 10 pairs = 600 €)

Subtotal is 3,000 €.

Amount requested 3,000 EUR

Project Name THOSE CHILDREN ALSO LIKE TO PLAY

Categories

Description

Description of the project:

Scout group Golema Oca works in a small Serbian enclave in Kosovo and Metohija. Due to political reasons and insecurity, children in this village and part of nearby city of Orahovac have restricted mobility and just few opportunities for communication and exchange with their peers outside the enclave. This creates serious problems for their growth and development. With this project we want to offer training on creativity and development education to children, Scouts and leaders. It will be a two days activity with the programme based on games. Trainers form training pool of the Scout Organization of Serbia and the teachers of primary school will be deliver the programme.

Objectives of the project:

The main aim of the project is to train local leaders and schoolteachers in providing on - going programme based on creativity and development games. We hope that this will help stabilising the local Scout group and widen prospective of children. Besides, the trainers will get acquainted with the situation in the enclave and serve as link to the Association and other Scout units in Serbia. One of the trainers will deliver the training in use of Internet, to help maintaining the communication. We plan that the event is held during the Orthodox Easter, so that we can use traditions and customs in the programme. Finally, working with the Group leaders and schoolteachers we shall identify their needs with the intention to prepare a long-term plan for supporting the Group.

Finance / Budget:

Resource materials (books, handouts, game-books, computer games, etc)200 Stationery (materials for games, toys)800 Promotional material (shirts, posters) 500 Travel and food for 5 trainers 500 Internet access for 3 months (incl. dial-up and equipment needed) 500
Total 2500

Project Name PPT 08

Categories

Description **Description of the project:**

PPT 08 is an education camp for ranger scouts aged between 15 and 21 years with 30-year-old tradition (08 being only this years edition). It aims to recruite leader scouts to master all their scouting skills, technical and social: orientation, topography, project management, leading, survival in nature, public performing, international activities etc. It lasts 10 days and is filled with very carefully designed program (please find enclosed the typical PPT program). The PPT staff puts very strong efforts into making the the PPT camp a unique experience for all included. Participants are put into 3 different groups according to the level of their scouting knowledge and each group follows their own program - that enables each individual to get maximum out of the PPT. Groups are called "Pokljuka" `s and are numbered I, II, III. 1st Pokljuka is the lowest level and participants work in a group, 2nd Pokljuka being one level higher, participants work in pairs and 3rd Pokljuka being the highest level, individuals work alone. PPT program is designed in a way that one individual can progress through all 3 levels (in 3 years!) and so gets "full package" of scout skills. Find more about PPT on: ppt.rutka.net (slo)

Objectives of the project:

Recruitment of scout leaders and improvement of their skills, informal education, living in nature, unique scouting experience

Finance / Budget:

Typical PPT budget is about 2200 € of costs (please find enclosed typical PPT budget plan): food, transport, program costs, supplies etc. we usually have to cover this costs of off rather costly participant fees; this year we apply for ESF co-financing in amount of 1200 €, which would make PPT available four youth with worse social background and would importantly increase level of quality of programme equipment

Amount requested 1,200 EUR

Project Name

Help me save the World

Categories

Description

Description of the project:

With Slovenia entering the EU many changes occurred In the environmental area specially in the way of waste disposal. Our community started the separation of household waste and In two years the amount of non-separated waste has greatly diminished. However, there are still many households, where the waste is not being separated and the members of these households are not ecologically aware. The project Help me save the world involves numerous activities that our members from 15 to 21 years will prepare for younger ones and then together In small groups engage in those activities. The project will begin with a big common activity, where the individual activities will be presented to the children. All the participants will separately collect glass, paper, cans and plastic for three months and during this time they will keep records of the amount of waste collected. Afterward they will gather in small groups and take part in one of the following activities; 1. Research 2. Catalogue of endangered plants in the Caret region 3. Catalogue of pollution focal points 4. Cleaning activity and exhibition of garbage

Objectives of the project:

1. Increase the ecological awareness among our members, their friends and other members of our community 2. Increase the consciousness that every single person. Is responsible, for our planet 3. Offer a real activity for the youth to help save the ecological problems 4. Increase the quality of life in our community

Description **Description of the project:**

A few years ago our group has received three used and badly damaged canoes. Our members have worked really hard to bring them to their present state, so they can be used for activities on water In which we involve during our summer camps, These camps usually take place by a river, which enables us to include the discovering of the river habitat in the program. Our members are very fond of canoeing in general and they love dIscovering nature this way, but unfortunately it is not the safest way because we do not have the appropriate safety equipment and paddles, which makes the activity impracticable. For a secure environment where our members could have fun on the water and get to know the riverbed with its nature we would have to buy 6 canoe paddles, 5 children helmets, 6 youth helmets, 5 children life jackets and 6 youth life jackets. At the moment we cannot engage in these activities because our equipment does not meet our national safety standards. The prices of good safety equipment are elevated, therefore we decided to engage our members (10 - 21 years) in a project, where they will earn the means to buy the above-mentioned equipment themselves.

Objectives of the project:

- Ensure a safe activity on the water for our members
- Enable the discovering of nature and of the river habitat in youth-friendly way
- Enable the usage of repaired canoes while fulfilling the safety standards of our country

Finnc. / Sudget

• 6 paddles 228 C • 8 children life jackets 464 C • 6 youth life jackets 234 C • B children helmets 336 C • 6 youth helmets 252 C TOTAL 1514 C We would need funding C because we will try to secure the rest of the money with our activity.

Project Name Fons 2008

Categories

Description

Description of the project:

Fons is a wood badge course organized for rovers and rangers (aged 17-26) from the Czech and Slovak Republics who are active in the movement. The course is going to take place between 15th and 24th August 2008 in Slovakia. Fons is going to consist of various activities leading to better understanding of participants' place and role in the Scout movement and society. It will also provide opportunity for discussion about current problems in the movement and motivation for further work and personal development. New contacts and friendships between scouts from our two nations will be encouraged. The organizational team consists of both Slovak and Czech scout trainers from different regions of the two countries, all with extensive experience in running scout courses.

Objectives of the project:

The main objectives of Fons are to provide the individual participants with time and place to reflect on their own life in Scouting and in home environment, motivate them to become more active and let them take part in a great number of activities from which they will be able to draw inspiration.

Finance / Budget:

Material, program activities 1.250 EUR. Food supply 1.400 EUR. Accommodation 1.100 EUR. Local transportation 700 EUR. **TOTAL 4.450 EUR. Request from ESF 2.000 EUR. Request from Scouting Slovakia 350 EUR. Request from Baden - Powell Foundation 1.250 EUR. Participant fee 850 EUR.**

Project Name SCOUT MAGAZINE "WORLD of SCOUTS"

Categories

Description

Description of the project:

This project began at local level in May 1999, where editing was done 4 times a year. We are registered editor in National publishing office under the code ISSN 1332-1919. The Scout magazine quickly became popular. An agreement was made at National level to help through the NGO National fund. Since 2004 no more funding has been received, so we requested funding within several Ministries of Croatia, yet this did not cover expenses. Last year we did not get any help from the Ministry of Education or the Ministry of Family and Youth. This year we are forced to stop issuing this Magazine, or increase the price, which will cut off the majority of our subscribers. It would be a real pity that after 9 years of serious work and a custom of scout being able to what is going on in Scouting in Croatia.

Objectives of the project:

Main objective of the magazine is to inform scout members about news and trends within the Scout Association of Croatia and around the World. Last year we published 1'700 copies for each period (Mar. Jun. Sep. Dec. 07), yet we have 4.000 members in Croatia. It is important to present our activities to the parents and institutions, as well as to possible donors. Beside the editing board we have correspondence network all over Croatia. Apart of official scout Bulletin, magazine "World of Scouts" is the only Scout Magazine in Croatia.

Finance / Budget:

Our annual expense is about EUR10'000 which includes graphic design, print, postal costs and office materials. Most of the work is done by volunteers. With subscription fees we can cover about 25% of the costs. So, we are depending on National donors and other donors. We are submitting this plea to the European Scout foundation for ask for help to save this important project. With EUR3'000.- we could cover printing expenses, and continue to obtain help through other donors, including National Ministries.
