- urges the World Scout Committee to engage in an adequate process for the selection of the Secretary General of WOSM to guarantee the connection between the policy direction decided by the Conference (and developed by the World Scout Committee) and the actions necessary to respond to the needs of National Scout Organizations; this selection process should be presented at the latest 12 months after the end of this Conference
- requests the World Scout Committee to make this process and its planning a real exercise in transparency putting the emphasis on the drawing up of a job description which will allow the hiring of the most appropriate person to carry out the missions that the Constitution entrusts to this position, taking into account the person's capacities, aptitudes and knowledge
- proposes to the World Scout Committee that this process should be sent to National Scout Organizations for consultation insofar as it concerns the definition of the profile, the description of the position, and its relationship with the World Scout Committee.

6/08 ELECTION SYSTEMS AT WORLD SCOUT CONFERENCE

The Conference

- recognising that the present method of electing a World Scout Committee has not guaranteed a regional balance within the Committee
- reaffirming that, from a governance perspective, the World Organization needs a World Scout Committee of people with a direct mandate from the World Scout Conference composed of representatives of all National Scout Organizations
- noting the legitimate concern of many Member Organizations that it should be possible to ensure balance in the World Scout Committee without explicitly regulating this balance in the Constitution

- decides that all Regional Conferences in the triennium following future World Scout Conferences take place according to a timeframe agreed by Regional Scout Committees

- mindful that effective communication is essential in any organization

In addition, any long-term, medium-term and short-term development plans, relating to the improvement of the infrastructure and the development of its programme, are presented to the World Scout Committee for consultation and information.
