

# HOW TO DEVELOP A VISION FOR YOUR NSO/NSA

What to consider

## "A GREAT HOPE HELD IN COMMON"

Don't focus on increasing effectiveness or efficiency but on what Teilhard de Chardin called "a great hope held in common"

## SOMETHING TO ASPIRE TO

Remember that a vision should be inspirational and something to aspire to

## INCLUSIVE PROCESS

Strategic plan team members can draft visions, but aim for an inclusive process. Be aware that consensus on the vision statement among key decision makers is highly desirable but may not be absolutely necessary.

## SPREAD THE MESSAGE

Arrange for the vision to be widely communicated and discussed
